# PRODUCTS

### BRIDGE -TYPE CMMs

– MICURA – CONTURA  
– ACCURA – PRISMO

### PRODUCTION CMMs

– DURAMAX – GAGEMAX  
– CENTERMAX

### LARGE MEASURING MACHINES

– ACCURA – MMZ

### OPTICAL AND MULTISENSOR SYSTEMS

– O-SELECT – O-INSPECT

### HORIZONTAL ARM CMMs

– CARMET – PRO

### COMPUTER TOMOGRAPHY

– METROTOM – VOLUMAX

# PHILOSOPHY

International leader in optics field, ZEISS offers three-dimensional measuring machines (TMMs), form and surface machines for all type of industrial applications, from prototyping to mass production.

Zeiss advantages: measurement of complex geometries – measurement time saving – improving of quality and repeatability of measurement results – flexible measures calibers – registration and data overview – precision and reliability unmatched.
